Hi Josh,

If no one is interested in serving in this position, I'm happy to continue. Now that the State handles after-hour calls, there's really no need for the position. (When I worked for the Agency of Human Services, I provided the state-wide training to Town Service Officers as they authorized funds from the State's General Assistance program.). Linda and I currently issue benefits with Salvation Army funds, and I can help people access State programs if they have questions.

Martha
