Subject: FW: ACF boundary painting and western boundary VAST gate

Josh, Jesse: Back on 11/20/20 (in the early term of the gate matter) I submitted the below email and attached to the ACF committee. It includes my cost of the materials for the gate, a bucket of boundary line paint and steel stakes placed at ACF boundary survey pins. That tally totals \$318.66 Since then and through Chris Hagerty's recent ACF survey work, I added five more stakes at \$3.79 ea. X 5 = \$18.95, for a new total bill of \$337.61. It would be good if I could be reimbursed for these costs.

(I recently volunteered 6 hours of tractor / skidder work, with Ethan, bringing out tons of metal culverts and metal building materials off the ACF.)

Thank you, Wright

Subject: ACF boundary painting and western boundary VAST gate

Hi: As we get ready to have trail designers plan out ACF trails I felt the need to make sure that all parties know the location of the ACF boundaries. These boundaries, on the north and western side, were last painted in red about 20 years ago. That's my guess, any ways. It was hard to see the red blazes but fortunately some of the lines had old flagging and remnants of old barbed wire. I had repainted the eastern side with VYCC about 15 years ago. The attached rough map shows (with black lines) where I've repainted the lines over the last three weekends, using a gallon and half of red boundary paint. (Ethan helped me find and flag much of the western boundary.) I flagged the ACF / Sunshine boundary (noted in dashed line on the map) and I installed steel stakes next to each ACF / Sunshine survey pin so the pins can be easily found in the future. With your permission, I'll repaint the ACF / Prelco boundary. I repainted that boundary perhaps five years ago.

I think I've shared with you that we are currently having ATV issues and they appear to be originating from the west on VAST Trail. (The conservation easement does not allow the public's use of ATV's on the property.) There is no gate on the western boundary at the VAST Trail. There is a locked gate on the eastern boundary of the VAST Trail with VYCC. A couple of years ago I asked the power company if they would donate a gate and they said yes but they would have to install it just north of the power line ROW in the center of the ACF. A gate in the middle of the ACF did not seem to make sense, so the offer was declined. In my experience, the only way to slow down and perhaps stop ATV

access is by installing locked gates with no ATV signs.

Its ideal if the gate is installed this fall before snow and while it is still warm. I have time tomorrow to do so. I can drive my tractor and trailer up the VAST Trail to the western edge. I've got two old 10' telephone poles sections for posts and the highway department is lending me a gas powered post hole digger. I've got all of the other parts and pieces. The attached bill that will be submitted for approval for boundary paint, gates, etc. and is for \$318.66.

Given covid-19 social distancing needs, I'm not seeking assistance. BTW, I'm happy doing this stuff.

Are folks okay with me installing the gate and seeking reimbursement? Sorry for the short notice.

Thank you, Wright 734-9279
