

Act 47 required changes: Section 6.1 -- Parking and Loading 5.1.24

6.1.2 -- *(add)*

***d)** In any district served by municipal water and sewer infrastructure that allows residential uses, the residential parking requirement for any dwelling structure shall be 1 parking space per dwelling unit. A developer may provide additional spaces if they are felt to be needed. In districts not served by municipal water and sewer infrastructure, the residential parking requirements are listed in the following table:

*(an * can be added to the 3 “dwelling” entries in the table)*
