Josh Arneson
Town Manager
PO Box 285
Richmond, VT 05477

Dear Sir:

Though the request for volunteer letters of interest submission deadline has passed, I would still like to express my interest in serving our community, if vacancies remain to be filled. In particular, I would like to serve as **Civil Defense Director** and/or as a member of the **Conservation Commission**.

I currently serve as our community's Cub Scout pack cubmaster and as a committee member for the Boy Scout troop. I have served in numerous volunteer leadership roles within the Boy Scouts of America prior to moving to Richmond and served as a Selective Service board member for 17 years. My education background includes a bachelor of the arts from the University of Michigan in classical archaeology and history and I hold a masters of business administration from Walsh College. My current profession is information technology internal auditor, which requires a detailed understanding of risk management and controls. This educational, volunteer, and professional background combined with a four-year term of service in the US Marine Corps, I have the basic skills and personal interest in these roles to serve our community effectively.

If I can be of service to the Richmond community, please consider selecting me for these roles.

Sincerely,

Kenneth A. Heskett
