Gary Bressor- Application 2018-034 for Sketch Plan Review for proposed Subdivision and PUD- Residential at Parcel ID# TR0055, located at 55 Thompson Rd, Richmond, located within the Agricultural/Residential (A/R) Zoning District.

Gary and Jean Bressor- own 5.25 acre on Thompson Rd. and has built ½ duplex already. Bought the property in 2005 and it was part of a farm and part is the conserved Preston property. Betty Preston farmed land until State proposed Bulk Tank regulations.

Mr. Bressor presents a slide show. Shows view from end of barn. States that they are looking at three different development plans. Would like to retain feeling that is around the Round Church Park and Town Green. Showed previous sketch plan with 5 one acre lots.

Mr. Sunshine wonders if the lot is serviced by municipal water and sewer. Mr. Bressor responds yes and that it was put in when added the duplex.

Slide show continues and shows pictures of UVA- academic village. Mr. Bressor likes the interaction between professors and students that was Jeffersons design.

Applicant shows sketch of units connected by arcade. States that building design is still in flux. He likes Shaker Villages and how simple the designs of the buildings are. Shows pictures of houses and the 1/2 duplex at 55 Thompson Rd and property at 4 Cochran Rd from back.

Mr. Firman questions what the preferred plan is. Mr. Bressor responds that depends on the day. Mr. Firman inquires what the layout of the homes are and how many bedrooms. Mr. Bressor responds that the 1/2 duplex that is built is a 2BR home and that he likes to see the small dense housing options in communities. Bristol, Waterbury have dense communities.

Mr. Sunshine recommends that the applicant talk to a bank first.

Discussion regarding number of units allowed. Per Richmond Zoning Regulations 5.24 acres can be made into 5 lots in the Agricultural/ Residential Zoning District. Discussion with ZA about number of dwelling units allowed.

Mr. Pedersen clarifies that 8 units proposed.

Gabriel needs to depart at 8:45 pm.

DRB closes discussion.

J & L Fath Properties- Application 2018-044 for Sketch Plan Review for proposed Subdivision and PUD (conversion of upper level of commercial building to two apartments) at Parcel ID# BR0039, located at 39 Bridge St., Richmond, located within the Village/Commercial (V/C) Zoning District.

John Fath, owner of the Toscano building, is sworn in, he is wondering about the ability of adding apartments to the second floor, since commercial space is not in demand. Either two 2 BR or four 1BR would be desirable. He would consider adding parking on the west side although BR0039 is exempt from parking requirements. Mr. Fath understands that current zoning regulations would only allow for one apartment. Square footage of upper level is 2400 square feet.

Mr. Sunshine explains that the Town Plan is not in effect, and until new Plan is approved and Planning Commission revises the regulations, the DRB has to deal with the underlying Zoning District which allows only one dwelling unit per 1/3 dwelling unit.

Mr. Fath replies that he is only left with the ability to add one apartment. Mr. Fath has a questions about parking. Mr. Sunshine replies that the building is waived from required parking. Mr. Fath would like to add parking. Mr. Sunshine asks ZA if applicant would need just a simple zoning permit to add parking. ZA replies no that it would have to be approved by the DRB.

Mr. Firman asks a question about possibility of a variance. Mr. Sunshine replies that the DRB can't grant a variance for something that is of the applicants making. Mr. Bender states that the only way forward for the applicant is to change the zoning. Mr. Sunshine states that the applicant should talk to the Planning Commission.

Mr. Fath think that the Town should be forward thinking and allow change. Mr. Sunshine replies that all buildings around him have similar issue but all are grandfathered.

Mr. Fath inquires how to get change in a reasonable length of time.

Mr. Sunshine directs him to Title XXIV about putting things forward to the Planning Commission, and says Mr. Fath should talk to the Fire Marshall before he building any apartments.

Mr. Firman inquires if anyone ever successfully received a variance. Mr. Sunshine replies no.

Mr. Firman speaks about various similar issues that have come before the DRB recently. Mr. Sunshine states the more bedrooms you have the more difficult it is to manage.

Would still need a Zoning Permit from ZA to convert upper level to an apartment.
