Hi Suzanne,

I found the file on the garage build from 2007 this am. We spent \$51,110.00. I have all the paperwork that shows the payments to the builder etc...

Now keep in mind this was in the fall of 2007 for dollar values.

Also, please note that the existing garage is 32' x 32'. Not 30' x 30', that is my error, if you could make that correction on our application. We would still like to come off the front of the garage 12'. So we are talking about a 12' deep by 32' wide addition.

Thank you, talk to you tonight!

I'll also add that the garage is insured for \$100,000 not including contents.
