- · · · ·		like to discuss further, specifically about the maps. We should provide
the KrC with some conservative maps they can use in the regional		the RPC with some conservative maps they can use in the regional

1 plan. We can then make our own plan, which may not have to address 2 a broad range of issues. Foley spoke with the woman who is tasked 3 with approving the plans at the PSD, who indicated that the regional 4 plan would not have regulatory teeth, the town plan would/could be 5 less conservative and the town plan would have regulatory teeth. The 6 town plan doesn't have to comply with the regional plan. Rock added 7 that Jeff Forward, municipal energy coordinator would like to get 8 together with Foley. 9 10 Town Plan 11 Rock referenced the handouts which were included in the packets: Foundations for Municipal Regulations and Programs and that "if a municipality does not have 12 13 a solid basis in its town plan for the regulations it puts into effect, the regulations can be 14 challenged in court..." 15 Discussion about the other hand outs including: 16 "Good and Bad Example of Goals, Objectives and Actions" - Discussion about the use of the word "encourage" within the Targets and Actions, Rock 17 18 would like to use more specific language. 19 "What the JAM Golf Decision Will Mean For Your Municipality" - The JAM 20 Golf decision was referenced a few times by the Conservation Commission folks, Rock directed people's attention to the last sentence on first page which 21 22 stated that "municipal officials may not deny permission for a project where 23 there is not a specific policy set forth in the plan stated in clear unqualified 24 language that creates no ambiguity." 25 "PSB Decision Provides Planning Insight" - The PC reviewed the example of \_ 26 a clear community standard. 27 "Vermont Fights Small-Box Sprawl" - The PC discussed the need to include screening standards for commercial properties. 28 29 **Building Footprint Graphic** 30 Town Plan Review Matrix – For the remaining chapters the PC would like to \_ go through the comments directly following the initial review of the chapter. 31 32 Also the PC would like to add a new Coolum which indicates where the comments originated from. The Pc discussed the following items from the 33 34 review matrix dated 5/1/2014: 35 • Row 3: yes include proposed revision • Row 4: Reap volunteered to draft some language for this item and take 36 37 to the Economic Development Committee 38 • Row 5: include this info and include a statement that we should be 39 encouraging some growth to distribute the municipal tax burden 40 • Row 7: no need to include additional data/analysis Adjourn 41 42 Tellstone made a motion to adjourn, seconded by Parke, all in favor. So voted. 43 44 The meeting ending at 9:00pm 45 Respectfully submitted by Clare Rock, Town Planner
