

Richmond Trails Committee
June 20 2017

Present: Ed Wells, Callie Ewald and Jean Bressor

-From the May meeting:

-Parking for the trails in the Village was discussed. The Selectboard has signage at the municipal lots, there have been posting on websites and word of mouth to encourage folks to park at Cochran's rather than at the Round Church

-Ed agreed to speak with neighbors to let them know of the work the Trails Committee is doing to alleviate the parking concerns on Round Church Rd.

-Ed brought up a series of questions for us to discuss - On the Preston Preserve - when will the trails be built out? Has there been consideration for the wildlife (night time biking)? Has there been consideration for walking/hiking only trails?

-We should create input for the Selectboard regarding oversight of the Andrews Forest land.

-The Story Walk was a big success. The library would like to do it again - this time on their own.

-We talked about the idea of when and how to close the trails.

-We talked about distribution of the maps.
