

Josh,

I'd like to volunteer for the newly formed Richmond Town Forest Committee. I am currently serving on the Trails Committee as well. I have served on the Trails Committee for close to 10 years or so. I have walked the land several times prior to the acquisition, at the behest of Bob Heiser of the Vermont Land Trust to offer opinions on the viability of a trail network on the land. I have supported the town acquisition ever since. I would like to volunteer my time to help plan and develop a sustainable trail network that encourages interconnectivity with other trails zones that boarder the land. I think this could be come an epicenter for the recreation economy for Richmond businesses. Please let me know if you have any questions.
