Hello,

I am interested in participating in the town forest steering committee.

I am part of the VT master naturalist program for our area, and I also live on the other side of vycc, on Lily Pond Circle. I own a large home daycare and preschool called Honeycomb Kids and we currently spend a lot of time in vycc! I am very invested in getting our community outdoors... Starting with our youngest population!

I have worked/lived and owned a business in Richmond since 2007 and I feel this could be a good match for my level of Civic engagement.

Please let me know if you have any questions for me- and I am curious as to what the expectations are for involvement in this committee.

Thanks and have a holiday !
