

Good morning, Josh,

I would like to submit my interest for serving on the Andrews Forest committee. I helped manage the acquisition from the perspective of the Town, and I am familiar with the management plan and members of the steering committee who helped develop it.

I bring with me administrative skill and a vision of collaborative management for the creation of trails and the preservation of critical habitat and species of the forest. I have walked the forest many times, and understand its link in the larger forest block that is important to the ecology of the area.

I have lived here in Richmond for nine years, and I am a strong believer in the conservation efforts that have taken place. I am available to meet with the Selectboard about this appointment, and I may be reached by phone at 802-585-0951, or by email at gurbanik@gmail.com.

Thank you for your consideration,

Geoffrey Urbanik
