

A Message from the Town of Richmond Regarding COVID-19 Resources

The COVID-19 health crisis has had a major impact on the lives of all Richmond residents. In times like these it is important to ensure that you, your family, and your neighbors are staying safe and healthy. The simplest thing anyone can do to help is to call their neighbors to be sure they are safe and ask if they need anything.

Online Resources: Information on municipal operations, volunteering, requesting assistance, and other State and Federal resources: richmondvt.gov/about-richmond/covid-19-response

Assistance By Phone: Call the Town Office at 802-434-2221. If you get the voicemail, leave a message and someone will call you back by the next business day. **Call 2-1-1**, Vermont's resource line, for any questions about COVID-19, or general questions about help and services in Vermont.

Don't Flush It: Flushing anything other than human waste and toilet paper causes harm to the municipal wastewater system and your private septic system.

Stay home, stay safe, and stay healthy.
