Dear Members of the Selectboard,

Traditionally the Richmond Town Manager has also served as the Emergency Management Director. I have served in this role since I was hired as Town Manager in November of 2018. As Town Manager I serve in a leadership role on a daily basis with all Town Departments. I feel this role makes me qualified to work with all Town Departments, as well as other organizations in Richmond, to coordinate a response to emergency situations.

I would gladly continue as the Emergency Management Director.

Thank you,

Josh Arneson
