Process and Questions to follow up on

Check references for Casella's drop off centers referenced in proposal.

If Casella's is chosen, what downtime is to be expected to allow for transfer facility to Casella? Would trash, recycling, and organics collection continue during transition?

Pricing could be capped at a certain percentage with increases above that percentage needing Selectboard approval.

Include Re-Use Zone in a five year lease.

Do we want to survey Richmond residents to determine the importance of a re-use zone?
