The Selectboard will need to:

- 1. Conduct the public hearings as warned; and then
- 2. Should the Selectboard conclude that the proposal is acceptable, vote to adopt the proposal pursuant to 24 V.S.A. §4442(c).

If the Selectboard wants to make substantial changes to the amendment proposals, the Selectboard will need to:

- 1. Warn a new public hearing or hearings;
- 2. Hold the public hearing or hearings, and consider the updated Municipal Bylaw Change Report on the conformance of the proposed amendment with the Town Plan; and then

Planning Commission Reporting Form for Municipal Bylaw Amendments (Modifications to portions of the zoning regulations to align with 24 V.S.A. §4413)

This report is in accordance with 24 V.S.A. §4441 (c) which states:

When considering an amendment to a bylaw, the planning commission shall prepare and approve a written report on the proposal. A single report may be prepared so as to satisfy the requirements of this subsection concerning bylaw amendments and subsection 4384 (c) of this title concerning plan amendments...The report shall provide:

(A) Brief explanation of the proposed amendment and...include a statement of purpose as required for notice under §4444 of this title:

This Planning Commission proposal would clarify the permitting and notification requirements for uses and structures regulated under 24 V.S.A §4413.

And shall include findings regarding how the proposal:

1. Conforms with or furthers the goals and policies contained in the municipal plan, including the effect of the proposal on the availability of safe and affordable housing:

The Planning Commission concluded that the proposal conforms and furthers the goals contained in the municipal plan by advancing Smart Growth goals, promoting compliance with state statute, elucidating the regulatory process for renewable energy projects. Specifically, the Planning Commission cited the following objectives from the 2018 Town Plan:

- Continue the fair and equitable application and enforcement of town, state, and federal laws
- Update land use regulations to include permitting steps, development parameters and mitigation requirements specific to renewable energy projects
- 2. Is compatible with proposed future land uses and densities of the municipal plan:

The Planning Commission concluded that the current amendment proposal would be compatible with the proposed future land uses and densities enumerated in the municipal plan. The 2018 Richmond Town Plan calls for the encouragement of "Smart Growth". By clarifying the permitting and notification requirements for uses and structures under 24 V.S.A. 4413—uses that include farming, forestry, silviculture, state- and community-owned and operated institutions and facilities, schools, places for religious worship, hospitals, and waste management facilities, as well as farm structures, forestry/silviculture structures, and renewable energy projects—the Planning Commission concluded that its proposal would strengthen agricultural and forest industries, balance growth with the availability of economic and efficient public utilities and services, and prevent the fragmentation of farmland and forestland.

3. Carries out, as applicable, any specific proposals for any planned community facilities:

The proposed amendments does not carry out any specific proposals for any planned community facilities. In addition, the proposed amendment does not conflict with any proposals for planned community facilities.
