

Website Committee  
Town of Richmond, Vermont  
203 Bridge St.  
Richmond, VT 05477

January 13, 2022

Dear Josh and Katie:

It is great to see the progress we've made together on creating the new website!

We've reached the stage where we need your approval of these designs so we can begin developing the new templates. To illustrate the overall look and feel of the new site, we've produced mockups showing the new Town and Library home pages (attached).

There will be additional layouts and features available in the new site that are not reflected in these mockups. We will be reworking all of the pages as we migrate and rebuild them in the new site. We'll work out the details of what these pages need at that time, based on your actual content. You will have an opportunity to review the design and adjust these pages before they go live.

For a good idea of the options that are available, please check out these live examples on other Ecopixel customers' sites. We will be adapting various features to fit seamlessly within your new website's design, and we'll set them up in a way that suits Richmond's particular functional needs.

Thank you!  
Paul Hansen
