Re: Williams Hill Class 4 road

Dear Josh and Select Board Members;

I am writing to convey my opinion that the Class 4 road at the top of Williams Hill Rd. should not be abandoned and instead should allow recreational use. Having been a part of the Town Plan Committee and a member of the Planning Commission who wrote the town plan, I can tell you that we heard over and over again during the town plan process that residents want more connections throughout town. I also believe that giving up this asset to appease a small neighborhood that likely will see very little effect from recreational usage does not make sense.

Sincerely,

Joy Reap
