GRAPHIC SCALE

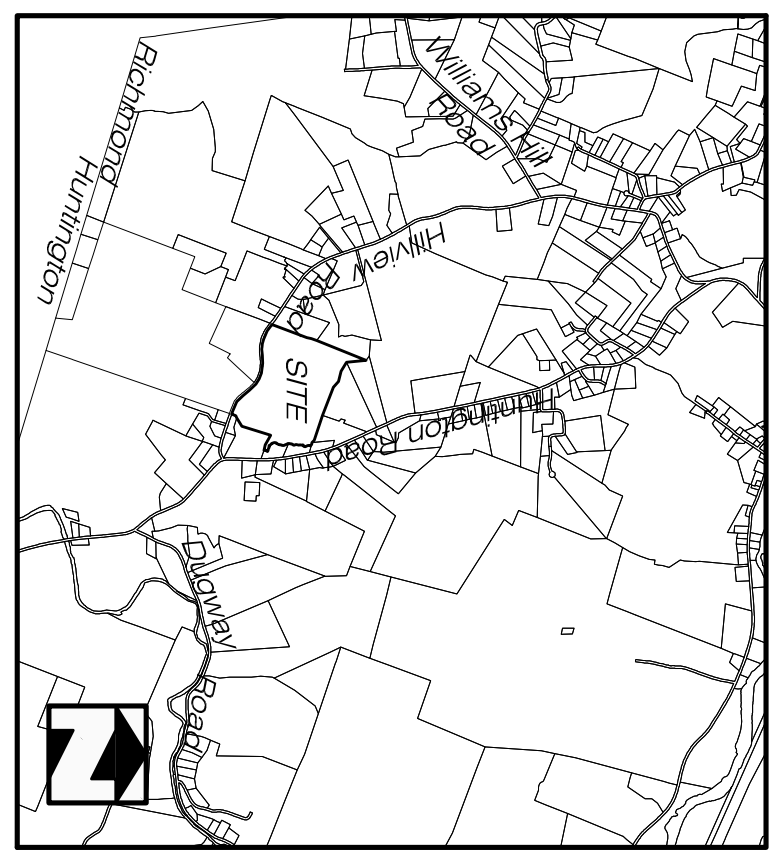

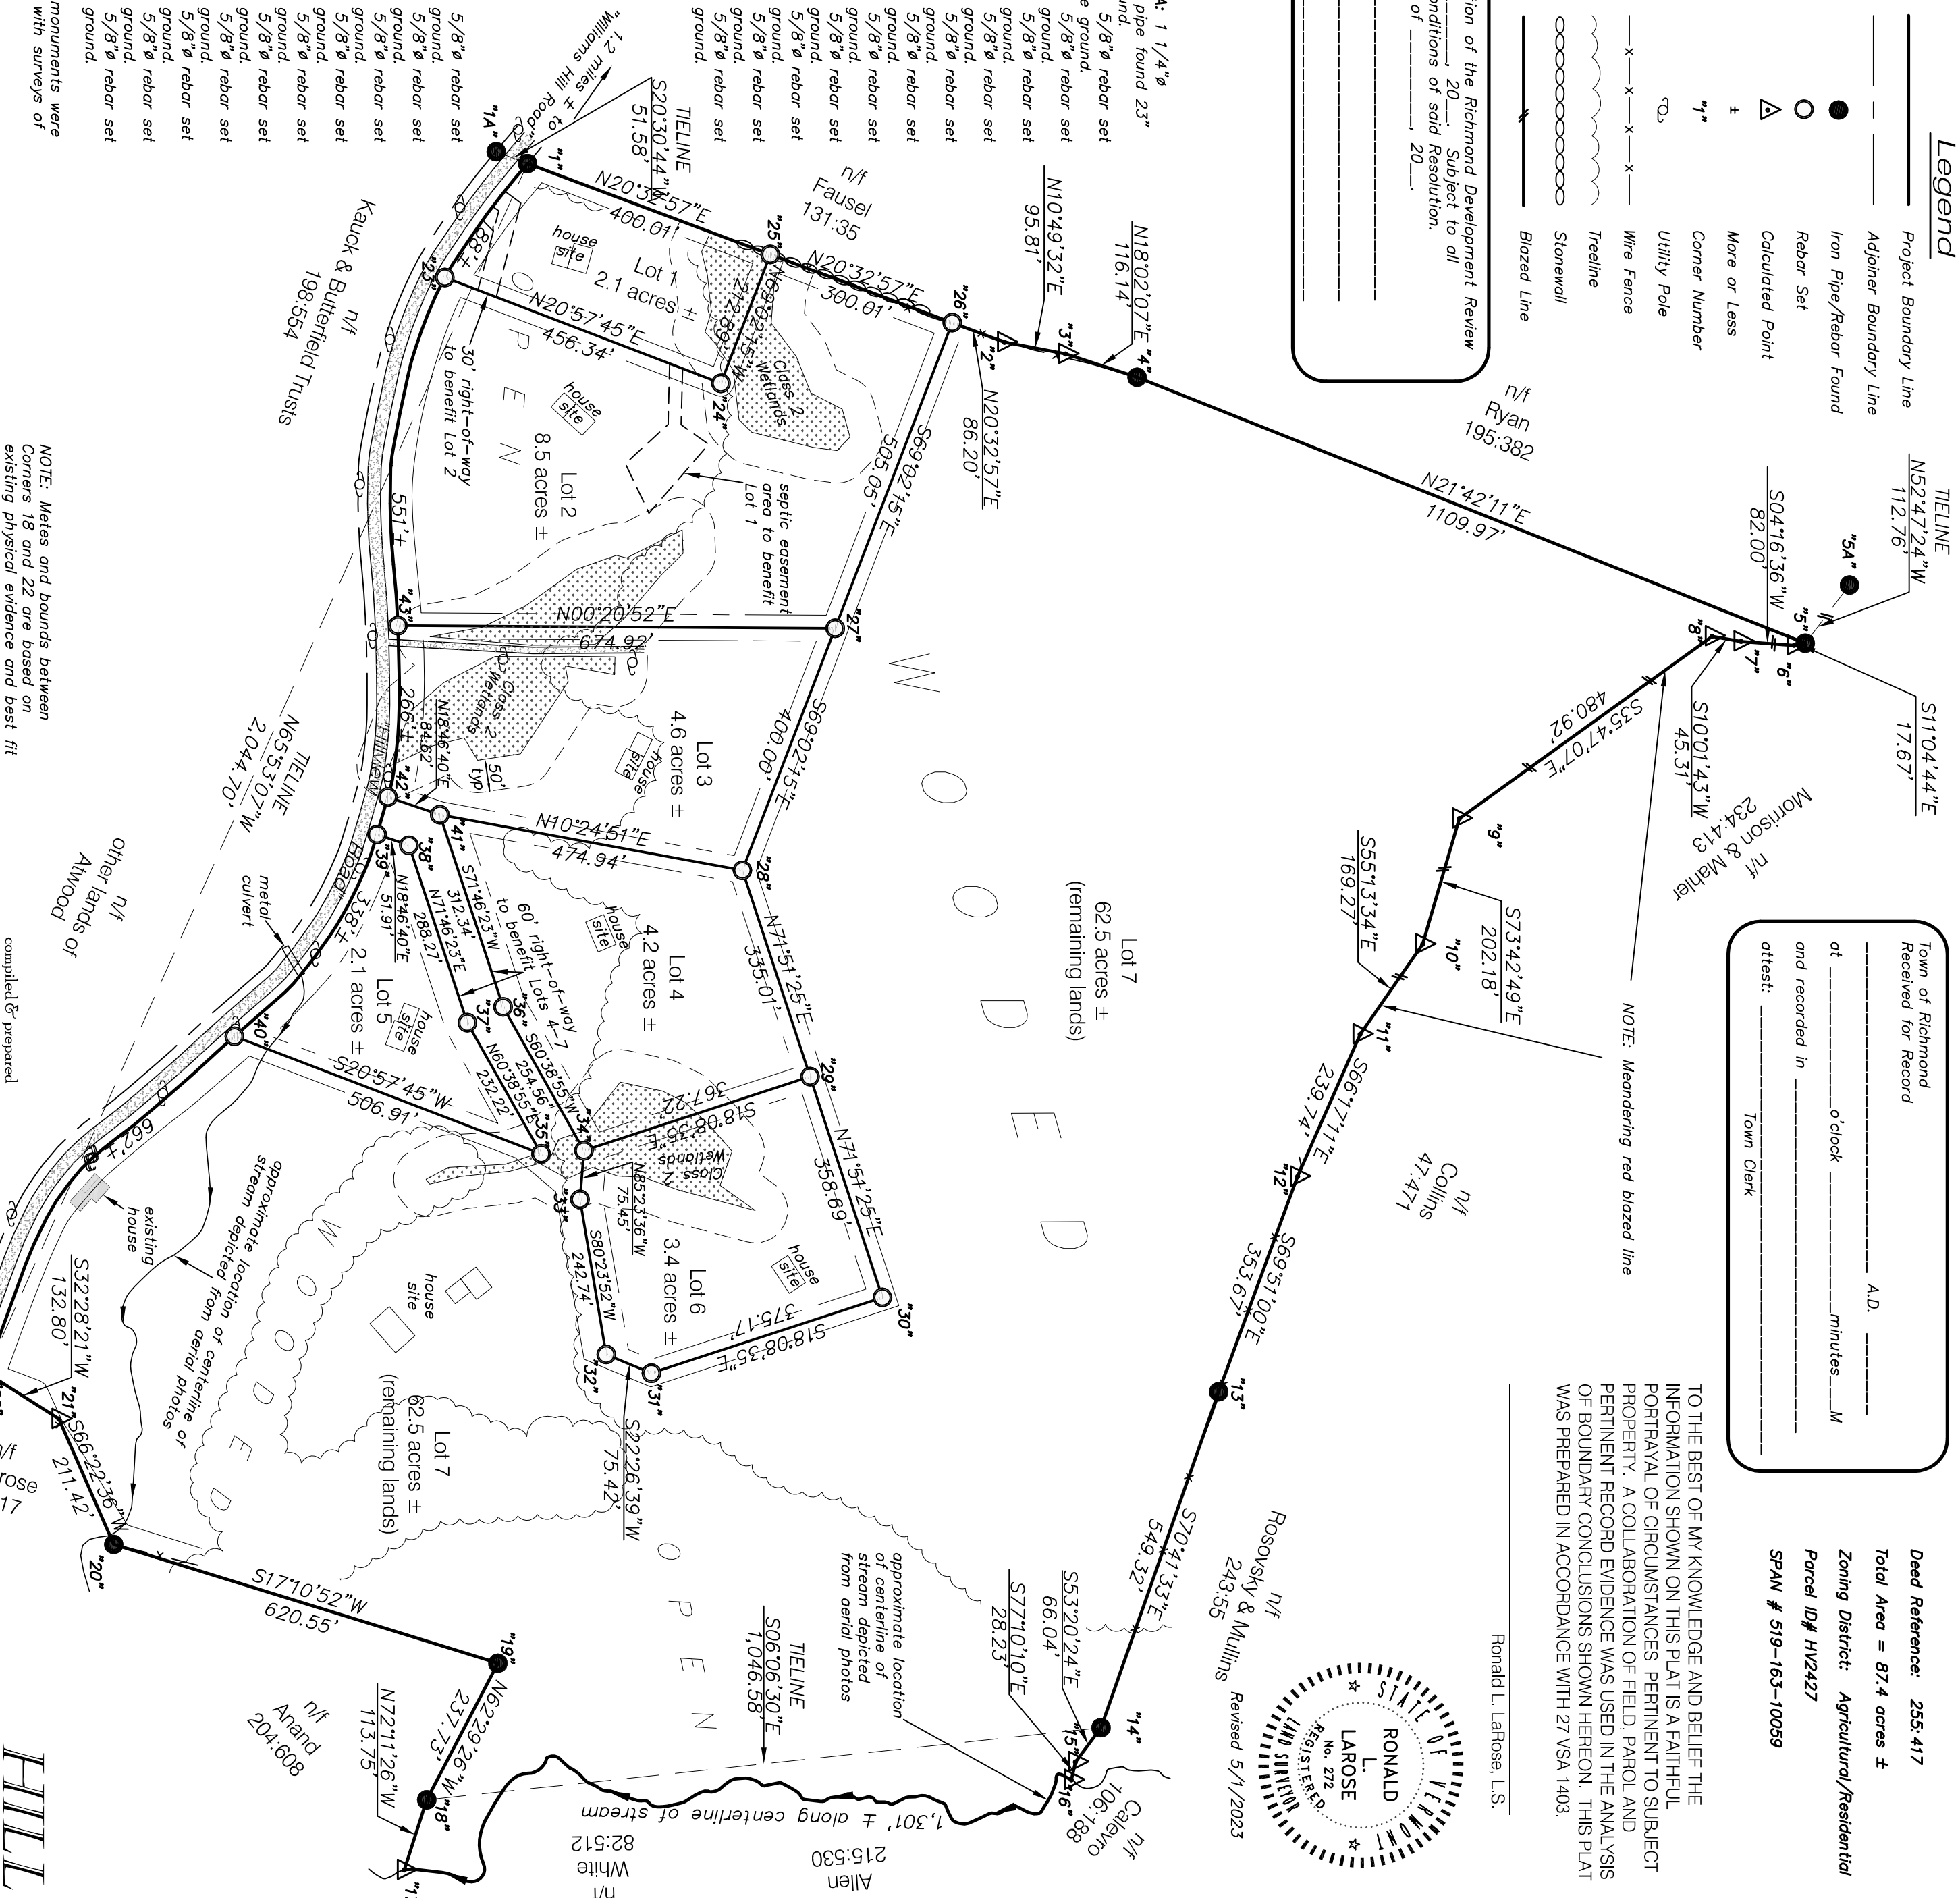

1 inch = 200 feet

NOTE: Metes and bounds between Corners 18 and 22 are based on existing physical evidence and best fit per Survey Note 1h. There are discrepancies between some of the common lines between this survey and that in Note 1h. The physical evidence was compared to surveys of record, and the boundary shown is trying to show a boundary that represents the original intent. Where there are substantial conflicts, deeds should be color of title.
