

Overview

My prospective tenant Richmond Wellness is a perinatal health center, community gathering space, and resource hub for families in Richmond and the surrounding region. The services included within Richmond Wellness will support the prenatal/postpartum population and their families in optimizing their health and wellbeing before, during, and after pregnancy and childbirth.

Services will include pelvic/perinatal physical therapy, nutritional counseling, lactation consultation/breastfeeding support, doula and childbirth education services, family and children's yoga offerings, counseling, and the production and distribution of perinatal dry goods such as lactation cookie mix, teas, sitz baths, and the like.

Richmond Wellness will offer the population of Richmond and surrounding areas a local option for receiving care to support pregnancy and postpartum, as well as create opportunities for healthy and safe family activities, community building, and employment opportunities within the village.

There would be no outside changes to the sight except a sign affixed to the existing post.

I would also like pre-approval for other uses listed in the Village Commercial Zoning Document.

- Bank
- Catering
- Education Facility
- Private Club
- Research Lab
- Office Professional and Business
- Arts and Crafts
- Wholesale Trade
- Dwelling units
- Personal Service

Any new business would receive a sign conforming to the existing regulations that would be attached to existing sign posts.
