

## Construction Update

### Williston VT 2A and Industrial Ave Project [Williston STP 5500(17)]

**DATE:** Friday, June 5, 2026

**TRAFFIC IMPACT AND DURATION:** From Monday, June 8, through Friday, June 12, between 6:30 a.m. and 6 p.m., the VT 2A southbound right-turn-only lane onto Industrial Avenue will be closed; drivers are still able to turn right onto Industrial Avenue from the existing VT 2A southbound through lane.

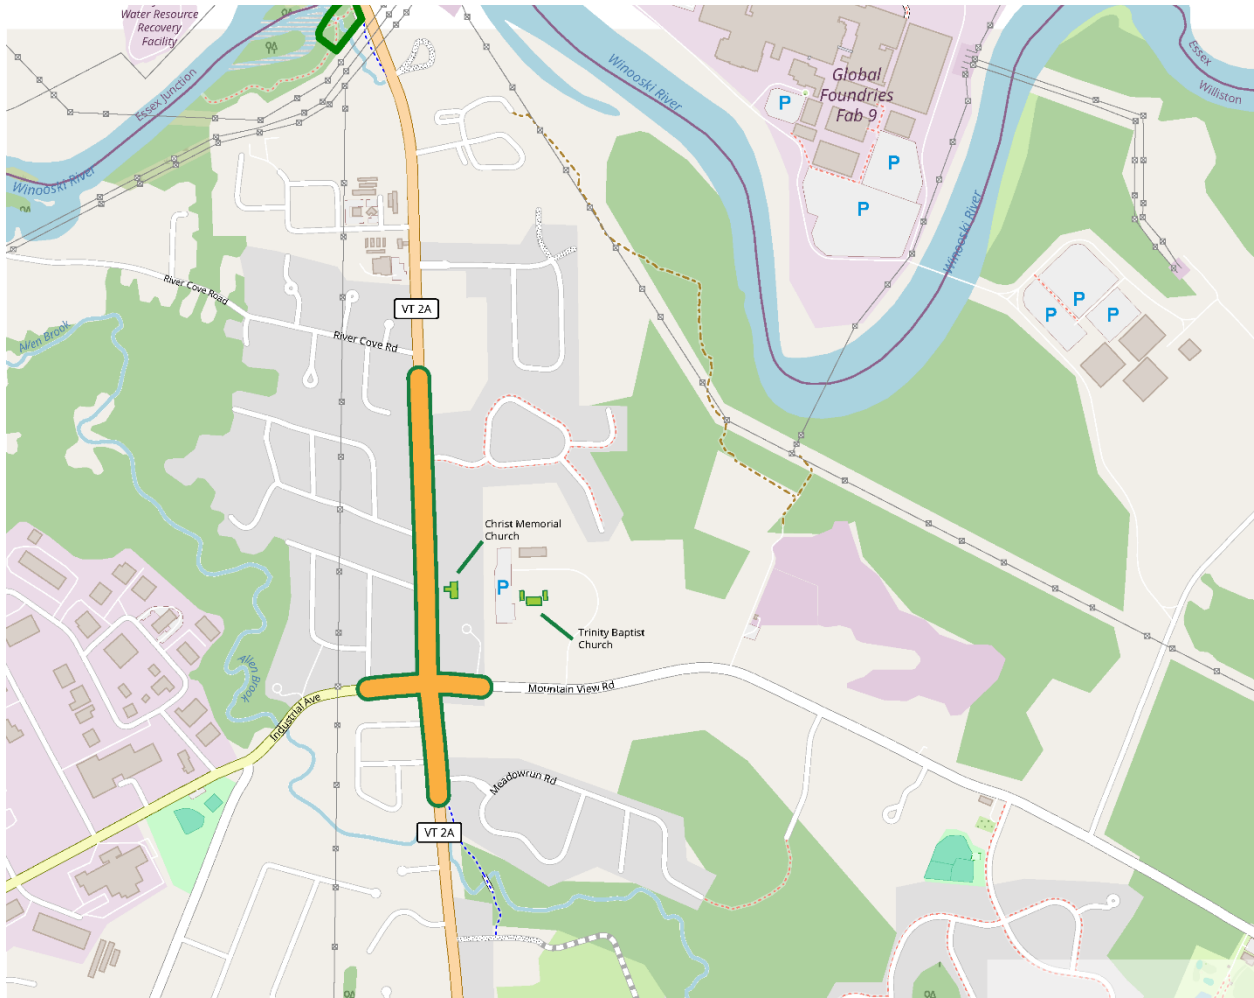

Between 9 a.m. and 3 p.m., there is potential for periods of alternating one-way traffic controlled by flaggers on VT 2A between Industrial Avenue and Hillside Drive. *Motorists may encounter delays and should allow extra travel time or consider alternate routes and use caution due to milled surfaces in the project area.*

**CONSTRUCTION ACTIVITIES:** Crews will complete construction of the new bioretention pond at the northwest corner of the VT 2A/Industrial Avenue intersection this week, with only final landscaping activities remaining. Next week, work will continue with paving along newly installed curb, shared-use path construction, sidewalk grading and preparation, and slope restoration on VT 2A between Industrial Avenue and Hillside Drive, including the northwest corner of the VT 2A/Industrial Avenue intersection.

*Crews construct the new bioretention pond at the northwest corner of Industrial Avenue and VT 2A in Williston, VT, including conducting excavation and drainage installation. Final landscaping activities remain.*

**LOCATION:** The project limits (highlighted in orange above) include the 0.7-mile segment of Vermont Route 2A (VT 2A) in Williston, VT from Meadowrun Road to just south of River Cove Road, including its intersection with Industrial Avenue/Mountain View Road.

**PROJECTED COMPLETION:** Fall 2026
