Description of Project: Relocate Driveway Is property in floodplain? NO

The Highway Department will review the proposal to ensure adequate sight lines, culverts and drainage issues. All new driveway culverts must have a minimum diameter of 15". Appropriate techniques such as headwalls and wingwalls may be required especially where erosion or undermining may be expected to occur. The landowner is responsible for purchasing and installing all required materials as approved for installation in the access permit. The landowner is responsible for all maintenance and repair for one year from the date of completion. For the replacement of existing culverts, the Highway Department will make the decision that an existing culvert has failed. The landowner will pay for the purchase price of the culvert. If the grade of the driveway is altered by the landowner so that the culvert is affected by frost action, the landowner will be responsible for repairs.

- Please include a Sketch Plan showing the proposed location of the new or modified access. (see reverse)
