2023_RSOSN Application for CRF funds.docx;

Hi Josh,

Please find attached the proposal for $150 in Conservation Reserve Funds to purchase signs, sign posts, safety vests and clickers for a pilot herp crossing site on Cochran Road.

The following motion was approved:

The Richmond Conservation Commission recommends that the Selectboard approve up to $150 in Conservation Reserve Funds to cover the cost of safety vests, clickers and 2 metal signs and posts, as described in the Richmond Save Our Salamanders Network proposal dated Oct 10, 2023. The request meets CRF criteria A1-A5 and B4 and B5, as enumerated in the proposal, as related to providing access to and preserving recreational opportunities and conserving an important natural resource. These funds must be expended within 3 years of the date of final approval, by approximately Oct 16, 2023.

This proposal is not that time sensitive so if you have a crowded agenda it can wait. I forgot to mention that Trails would really like to get the materials to fix the Beeken/Rivershore bridges before the snow flies. And Daniel Schmidt advised us that engineers are in high demand and the sooner we try to schedule on the better, for the Old Jericho Road project. I believe Hannah and co. are working on getting the requisite 3 bids.

Thanks,
