quarters

or education taxes

....

>

> > he entire year which inflates this number for the previous quarters signed funds which has an impact on taxes collected in QTR 4

Taxes received will not match the Delinquent Tax Administration reports due to entries made in the General Ledger for Abatements, Retainage, and Muni payments. Taxes received will not match the Trial Balance Accounts Receivable line because that includes all payments from past and present years, Taxes received will not match the Tax Revenue Line because that includes what was billed, not received, and is split between the Highway line and the General Fund Line.

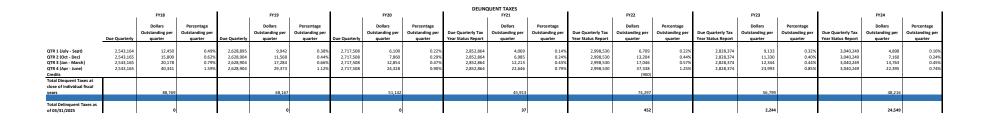

Municipal Payments

The state sends an electronic file for income sensitivity which results in a state adjustment on some tax bills. The state adjustment that exceeds the education portion of the tax bill is applied to the municipal portion of the tax bill. The state sends the municipal payment via ACH to the Town's General Checking Account, NOT through the Grand list or Tax Admin. The payment is posted to the Town's General Ledger account, NOT in Tax Admin, therefore it has to be added to the Tax Admin Report on this spreadsheet.

State Adjustments

The education portion that is included in the state adjustment reduces what the homeowner pays, and the money is sent directly to the School. The Town is sent an electronic file to the Grand List software, then to the Tax Admin software, then to the General Ledger. This amount is reduced from the General Ledger Tax Revenue Account because it is not Town Revenue. The Tax Revenue Account in the General Ledger is the budgeted revenue approved by the voters. The tax Accounts Receivable Account is reduced as people make payments.

Data Obtained from Tax Admin module and General Ledger module "current year taxes"
