

Huntington Gorge / Dugway Rd Parking Rules

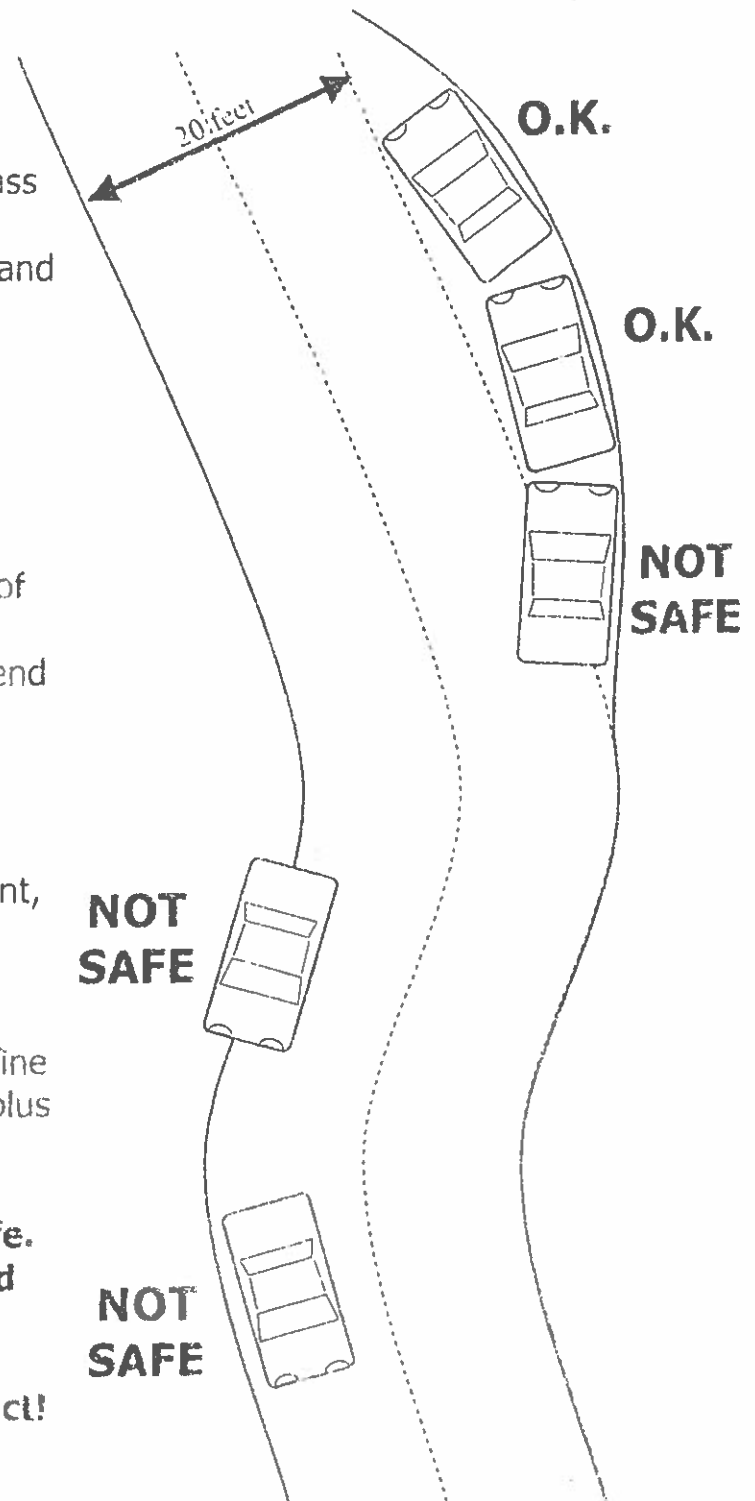

Vehicles must be parked **off the traveled portion** of the road. If an emergency vehicle and a car can't pass between your car and what ever is across the road, you are in violation and will get a ticket, and maybe a very expensive tow. Please have fun, be safe, and don't ruin your day with a ticket and a tow. Park Responsibly.

Thanks, Richmond Police Dept.

- It's best to park only on one side of the road
- Do not try to "squeeze in" at the end of a line of cars
- Do not leave valuables in your car
- No parking in front of the upper gorge at all (there are signs)
- Do not park up on the embankment, that is someone's property.

Regular Parking Violation: \$25 fine
Impeding the flow of traffic: \$200+ fine
Towing your locked, in park vehicle plus storage/yard fees: \$200 & up

Please help us keep this area safe. Fire Trucks and ambulances need to access this area much too frequently during the swimming season. Enforcement will be strict!
