I recently moved to Richmond from a city with a larger population than the state of Vermont and one of the things that has excited me about moving to a small town is the opportunity to serve the community. I would like to be considered for the Energy Coordinator position, which I believe my professional experience aligns closely with.

Over the past 14 years my experience has included greenhouse gas accounting, residential efficiency programs, solar analysis and feasibility, industrial energy audits, energy modeling of residential and commercial buildings, energy code compliance, building certification (ENERGY STAR and LEED), building commissioning, and more recently software development. Please see the link below for my resume.

Sincerely,

Matt Steen
