Mr. Arneson and the Richmond Selectboard,

My name is Annie Farr, I live at the Farr Farm on Huntington Road. For a math project on information collection and graphing data I counted the cars that go by the farm on the morning commute. I counted on a school morning (Tuesday February 10th) and a vacation morning (Tuesday February 24th). I have attached my graph with the data below, I found that there are more than double the number of cars on a school morning. My mom suggested I send this information before your discussion of the new stop sign tonight.

Thank you,  
Annie Farr

# Total number of cars going into town between 7 and 8 Am

Key

School Days	NO School
-------------	-----------

total cars 353

Date 2/10/25

total cars 165

Date 2/24
