Call to Order: 7:03 PM

Welcome by: Wood

Public Comment:

Wood stated that Item e) was to formally receive the petition as the first step in getting that process going. The Selectboard is not going to dedicate any time to discussing the merits of stop signs at tonight's meeting.

Houle mentioned that the Town Reports were a little late. She observed the Common Level of Assessment (pg. 39), commented on the Selectboard report (pg. 40), and stated that the upcoming 250th Anniversary of our Country was absent.

Additions, Deletions or Modifications to Agenda: None

70
71 Filkins recused herself as a resident of Southview.

72
73 Arneson reviewed the agreement in the packet from Watershed Consulting for
74 Selectboard approval. Arneson stated that it was a productive meeting with the State to
75 secure the grant funding and get the NOI submitted on time.

76
77 *Hill moved to approve the agreement with Watershed Consulting to complete the work to*
78 *submit a full Notice of Intent for the Southview Stormwater 3-Acre Permit. Rabideau*

93 Littlefield summarized the letter of support if the Selectboard is interested in serving as a
94 formal municipal partner on this grant proposal. Littlefield confirmed that any staff time
95 would be less than 8-hours total unless interest emerges from other Town resources, such
96 as the Town Plan.

97

98 *Filkins moved to approve the letter of support for the Climate Smart Communities*
99 *Initiative grant. Rabideau seconded.*

100 *Roll Call Vote: Filkins, Hill, Rabideau, Sander, Wood in favor. Motion approved.*

107 Littlefield reviewed how the Vermont Urban and Community Forestry program would
108 provide a tree to replace the oak and a tree planting workshop surrounding Mother's Day.
109 Littlefield stated that Houle helped secure another tree to do some interplanting below the
110 maples that are in front of the Town Center.

111

112 *Filkins moved to approve planting a tree near the Volunteers Green playground and*
113 *planting a tree at the Town Center. Sander seconded.*

127

128 Arneson read Article 3. Wood illustrated that the Town Moderator, Clint Buxton, would
129 provide some procedural insights.

130

131 BuxtonC stated that the Town Meeting will be conducted using Robert's Rules of Order
132 except when superseded by Vermont State Law (paper ballots and reconsideration). All
133 remarks and motions should be directed to the Moderator, and those comments need to

134 stick to the merits of the question. All Articles must be moved, seconded and restated by
135 the Moderator before discussion can begin. All motions and amendments are to be made
136 in the affirmative, such that clarity is assured. Non-voters may not vote by voice or by
137 any other means. Voting on an Article starts with a voice-vote and then, if necessary, a
138 division of the house by standing or raising a hand. A paper-ballot may be requested
139 provided that seven voters call for such a ballot per Vermont State Law. All Articles can
140 be amended and that amendment may be amended once. Amendments should be
141 presented in writing such that it can be read to the assembled. Amendments should be
142 made in the affirmative and must be germane to the original Article. There is no
143 reconsideration on an Article once the vote is declared and the next Article is announced.
144 State Law allows discussion of warned Articles on Australian ballot with the exception of
145 voting on Town or School officials. Voters have the right to ask for this discussion, not
146 the Selectboard, nor the School Board, nor the Moderator. The Moderator asks for a
147 motion to discuss the article, entertain a discussion, and cease the discussion. If
148 somebody has a question, wait for the Moderator to recognize the person, then stand and
149 state name for the record. The person that moves the Article onto the floor has a right to
150 speak first. Citizens have the opportunity to speak twice on the Article motion after
151 everybody has a chance to speak once. Robert's Rules provides a time limit of 10
152 minutes to speak but if there's no objection, BuxtonC will limit the speaker to 5 minutes.
153 Robert's Rules restricts the reading of printed material and prioritizes conversational,
154 germane debate.

155

156 BuxtonC explained the process for “postponing indefinitely” an Article that has been
157 moved to the floor. If someone requests “postponing indefinitely” an Article, it requires
158 a second, then the merits of the question can still be debated. The “postponing
159 indefinitely” motion is not amendable and it requires a simple majority to pass. If it
160 passes, then the Article could still be added to a future Town Meeting. Someone may
161 request to call the question (or cease debate) after being recognized by the Moderator. A
162 two-thirds majority vote is required to uphold ceasing discussion. BuxtonC stated that
163 this is the preamble he gives at Town Meeting to inform and educate the citizens.
164 BuxtonC reviewed that this applies to all Articles and not just Article 3. BuxtonC
165 summarized that anyone can request a paper ballot at any time, as long as seven other
166 people second it. Debate would continue until the question is called. BuxtonC illustrated
167 that an affirmative amendment needs to be clear to the body of the Article with a positive
168 statement and not a negative connotation. BuxtonC described that he can use his gavel to
169 declare the debate out of order if people become invective and start engaging in personal
170 attacks. If things get really unruly then the Constable can come in to help maintain a civil
171 environment.

172

173 BuxtonC reviewed that once an Article is moved and seconded onto the floor, the body
174 owns it (not the Selectboard) and decides what to do with it. Arneson summarized that
175 the Town of Richmond has voted to put budget items on Australian ballot but has not
176 voted to put general public questions on Australian ballot. That is why Article 3 is not on

177 Australian ballot. Arneson stated that in the future, there could be a vote at a public
178 meeting to move something like Article 3 to Australian ballot. BuxtonC reviewed that
179 even if the first person to speak makes a motion to “postpone indefinitely” then they body
180 still debates the merits of the question. The only time the debate can be ceased is if
181 someone calls the question and it is approved by a two-thirds majority to cease
182 discussion. BuxtonC clarified that since Article 3 is on the Warning, they are going to
183 have some discussion on it. The only exception would be if the first person speaking
184 makes a motion to “postpone indefinitely” with a second and the next person speaking
185 calls the question and two-thirds of the room votes in agreement. BuxtonC stated that it
186 is a Richmond tradition that everyone should be able to speak on an Article as it is the
187 civil thing to do.

188

189 BuxtonC noted that the Secretary of State's website has a couple of great resources on
190 Town Meeting:

204

205 Wood summarized that the petition was received on February 18 and the Town Clerk
206 confirmed it was a valid petition. The Selectboard needs to warn a Public Meeting within
207 the first 60 days (the meeting does not have to occur within the 60 days). The petition
208 will be voted on by Australian ballot and not a Special Meeting of the Selectboard. The
209 vote has to be warned not less than 30 but not more than 40 days prior to the voting date.

210

211 Arneson illustrated that the Selectboard has to have a Public Informational Hearing
212 within 30 days of the vote (there will be no decision at the Public Informational Hearing).
213 The Town Attorney confirmed that the vote would be to disapprove of all the proposed
214 amendments to the Town of Richmond, Vermont Traffic Ordinance approved on January
215 5, 2026 (and not just the amendments associated with the stop signs on Huntington Rd,
216 Bridge St, Thompson Rd, and Cochran Rd). Arneson estimated that the Selectboard
217 would consider a late April or early May timeframe for a vote. Arneson will coordinate
218 with the Town Clerk and the Justices of the Peace for an actual date. The Town Clerk
219 thinks that the vote can occur at the Town Center with the option of early voting.

220 Arneson illustrated how any petition against a proposed amendment goes right to
221 Australian ballot. Wood reviewed that the Public Informational Hearing would discuss
222 the intent of the amendments and the proposal of the petition. The Australian ballot vote
223 will occur on a previously warned day after the Hearing.

224

225 Arneson illustrated the expenses associated with the vote. The Board of Civil Authority
226 does not get paid. The Town can print their own ballots on cardstock with a question and
227 yes or no option. There are other minimal costs associated with newspaper Warnings.

228 Arneson estimates that it will cost under \$1,000. Arneson stated that it was under \$2,000
229 to put in the stop signs at the intersection. Wood summarized that the Selectboard was
230 planning to put in the stop signs for a trial period. Haskins requested that the Selectboard
231 provide the State of Vermont statistics about the potential for accidents at that location.

232 Filkins suggested using <https://www.localminutes.org/> to summarize the history and
233 information that has been discussed over the last year and a half. Farr suggested
234 checking the April school vacation dates for scheduling the Informational Meeting.

235 Wood summarized that the Selectboard does not think this is a perfect solution, so they
236 are willing to talk about the process and change their minds.

246 [Easement Request and site plan.pdf](#)

247

248 Wood summarized the easement request from the 2/17/26 Selectboard meeting. Wood
249 reviewed that they wanted to put some language in the easement. The sewer line would
250 be straightened out and brought to current code if it were ever dug up. It would be a sale
251 of Town Property because they would be selling easement rights. There is a formal
252 easement for the portion of the concrete pad that is half on Town property. Arneson
253 reviewed that if the Selectboard approved the easement, they would then post the Notice
254 of Sale and then there is a 30-day waiting period after it is published. They would
255 finalize the sale if there was not a petition to stop the easement. Arneson confirmed that
256 the easement specifies 10-feet on either side of the sewer line and he can update the site
257 plan with a dotted line to show where it is. Rabideau suggested having it written in the
258 metes and bounds description which is legally durable for a land dispute. Arneson
259 displayed the easement descriptions for the “10-foot wide easement for the use,
260 maintenance, repair and replacement of underground sewer line” and “in the event the
261 current sewer line needs to be replaced” that the “sewer line be moved so that is in more
262 of a direct straight line from its source on the Grantee’s property to its connection to the

263 sewer line on the property located easterly of the Grantee’s property...”.

264

265 *Filkins moved to approve the conveyance of a 10’ sewer line and access easement to a*

272 *seconded.*

273 *Roll Call Vote: Filkins, Hill, Rabideau, Sander, Wood in favor. Motion approved.*

274

275 Wood clarified that they are not actually selling any real estate but technically selling
276 rights to that piece of property.

289

290 Arneson summarized that Old Jericho Rd is primarily used as a walking trail or biking
291 trail. In the 2023 flood there was erosion to the trail and the footbridge at the end of the
292 trail, the gabions were totally washed out. This is covered by FEMA, and the project
293 would restore the trail and the bridge without having the gabions in the channel of the
294 creek. The total cost of engineering construction is \$132,000 with FEMA covering 90%,
295 the State covering 7%, and the Town covering 3% (~\$4,000). They received 5 bids, so it
296 was a competitive quote. Filkins stated that you cannot use the Old Jericho Rd trail
297 without the bridge. Wood stated that it seems like a lot of money for a walking trail.

298

299 *Sander moved to enter into an agreement with MSI Trucking & Sitework for repairs on*
300 *Old Jericho Rd. in an amount not to exceed \$117,350. Filkins seconded.*

384 00:41:20 Bonny Steuer (she/her): Does the maker of the motion get to speak
385 prior to a move to table?

386 00:43:35 Jean Haskin: Haha! who is the constable?

387 00:45:11 Connie van Eeghen, she/her: Our constable is Andy Squires

388 00:47:36 Bonny Steuer (she/her): my mistake - not maker of the motion - the
389 person who has brought the article.

390 00:49:08 Bonny Steuer (she/her): Super. Thanks for the clarification Clint.

391 Much appreciated.

392 00:53:37 Connie van Eeghen, she/her: Thank you, Clint!
393 00:54:08 Bonny Steuer (she/her): There is good work that has done between
394 the various parties on this topic. Please come with an open heart to this discussion.
395 00:59:23 Andrew Bessette: If you keeping putting off the decition on stop signs,
