Dear Josh and Selectboard members,

This is to let you know that the Historical Society is working on plans for some needed maintenance at the Round Church for this summer as follows:

- Installation of longer railings and stair runners on the stairs to the balcony - will make access safer
- Interior painting of the walls
- outside painting of the doors, window sills and lower clapboards
- possible work in the "attic" to provide safer access to the belfry such as new floor boards and grab bars
- mouse proofing around the electrical box

As per our lease, the Historical Society does not need Selectboard approval for maintenance items, but the RHS Board wants to keep you informed. The repairs will be paid for from our funds which were donated to the RHS for the upkeep of the Round Church.

Thank you,  
Fran Thomas  
President - Richmond Historical Society
