Hi,

We just submitted the Zoning Permit application to Dante for the WRUJ to put the antenna atop the chimney on Town Ctr (already have DRB approval). Would it be possible to include us in an upcoming meeting for a waiver of the \$65 zoning permit fee?

Also, in the DRB decision, we agreed that the town could pick the color for the radio antenna. (The antenna would be painted to match the building.) Not sure who would decide that, or what you advise?

We are hiring Burlington Communications to put up the antenna and to make sure it doesn't interfere with other antennas on the building (as the DRB also stipulated). We have also enlisted a radio engineer to advise us.

The goal is to get the antenna up there within a year.

Thanks,

Angelike
