

Richmond Trails Committee  
3-19-24

Present: Alison Aiken, Chase Rosenberg, Alex McAleer, Hannah Harrington,  
Community members: Bec Wojtecki and Lisa Miller

Agenda

- Approve minutes - can approve at the next meeting
  - Discuss 2024 trail work plan and priorities
  - Volunteer Green - FPF posting - stay off eroded sections, muddy trails and trail restoration
  - Preseason cleanup is significant compared to last year. Some trees down - will need to be cut and moved. In the next month, prioritize where to put our focus for work sessions - can folks check trails for work sites?
    - Chase will scout out Sip of Sunshine and Jericho Road Trail
    - Johnny Brook Trail - looks good
    - Old Jericho Rd Trail - UVM students working on a site plan
  - ACFC - two candidates: Daniel Schmidt and Wright Preston - all present support both candidates
- Revised trail plan and management plan need to be done next.  
Tyler Machia - any trail needs an engineered site plan.  
He interpreted the rule that ACFC needs an engineered site plan. Go before the Design Review Board for them to rule on the current plan. There is a subcommittee on wildlife, looking at the impact. Impact of monitoring potentially in process.
- Discussion of use Trail Forks for opening and closing trails?
    - where would it live? who would update? Collaborate with RMT
