

Richmond Trails Committee

10-21-25

Present: Trum Rittling, Ben Feinson, Tyler Merritt, Alison Aiken, Mike Donahue, Amy Welch, Hannah Harrington and Jean Bressor

OJR Trail project - Regarding email from Josh Arneson/Tyler Billingsly

What am I designing the bridge for? Bike, pedestrian

Width of bridge? 5 feet

Culverts work? Have it as a separate line item and look for alternate funding (Richmond Conservation Commission)

Site work? Include in a separate line item

Have the bid include the bridge and figure out access to the construction site. Have the culverts be a separate item

Will look to get a copy of the FEMA report.

Can we say our preference is for them to access from Southview to naturally improve the trail?

ACFC - Mike has been to a few meetings but doesn't have time to commit to being on the committee. No one else present expressed interest.

Article in Times Ink - Jean - place an article when we have achievements we want to share with the community

Plan to finalize bridge Ben moved on Rivershore Trail - what else to do to make the bridges secure - cables to secure the bridges.

Bridge needs to have a stringer added - stringer is near the bridge.

Ben will arrange work day and look into purchasing cables to secure from RHS. Voted to approve spending up to \$100 on lumber and cables to finish bridge on Rivershore trail.

Downed tree on east end of canoe access - needs to be cut. Tyler will work on it.

Friends of the Trails FPF posting - 10 folks responded so far.

Purchase of trimming equipment - Mike will look into getting a bid

Voted to approve the September minutes
